# FAQs

FREQUENTLY ASKED QUESTIONS

## 1. WHY DOES IT TAKE EIGHT WEEKS TO DELIVER WHEN WE ARE OUT OF STOCK?

We raise new production cuts approximately every two weeks. All backorders are then accumulated and added to a minimum production run of 200 units per cut. When a production cut is raised, the order goes into a queue by order date. The average lead time for local orders is eight weeks from the time of loading a production cut.

Please note that our import orders can take 12 to 16 weeks. This is dependent on the time of year as well as the factories capacity at the time.

## 2. WHAT IS THE QUICKEST WAY TO FIND OUT HOW MUCH STOCK IS ON HAND?

By visiting our website at [www.rolando.co.za](http://www.rolando.co.za) you can easily and quickly find out how much stock is on hand.

## 3. CAN WE MANUFACTURE BESPOKE DESIGNS AND COLOURS?

All our fabrics are designed and imported exclusively for our Rolando catalogue. As such, we can only supply the exact styles and colours represented in this catalogue.

However, should the quantities meet the minimum fabric requirements required for your own design and colours, we will gladly assist in developing and designing your unique requirements. A minimum fabric order of 3000 metres applies.

A 50% deposit would be required for any bespoke garment developments and a minimum production run of 200 units per style would apply.

## 4. DO WE MAKE ALTERATIONS?

Our garments are manufactured in line with the average specifications of the South African market. Our measurements lean more towards corporate fits, rather than slimmer fashion fits. We do not produce garments to individual measurements and therefore we cannot carry out any alterations.

However in exceptional circumstances, we can alter long sleeve shirts into short sleeve shirts. A surcharge would apply to any such alterations and no returns would be accepted of any garments that have been altered.

## 5. HOW DO I KNOW WHAT SIZE I AM?

Use our size chart on page 252 to determine your correct size. It is advisable to get a friend or colleague to assist you in taking your measurements. It is important that you stand upright when taking these measurements.

## 6. WHAT IS THE DIFFERENCE BETWEEN STANDARD FIT AND FASHION FIT?

The term 'standard fit' refers to a more relaxed fit, whereas 'fashion fit' refers to a slimmer fit. If you prefer a standard fit, but one of our shirts is only available in a fashion fit, then we would advise you to size up by one size.

## 7. I NOTICED THAT REPEAT ORDERS OF THE SAME FABRIC ARE NOT 100% THE SAME, SO THE NEW GARMENTS DO NOT MATCH THE OLD WHEN WORN TOGETHER. WHY IS THAT?

Variations in colour do occur from different dyelots and shipments. These differences are generally within international tolerance levels.

We have very high standards when it comes to colour continuity and we utilise the services of an international independent testing laboratory. This laboratory approves the fabric, prior to shipment which helps to ensure colour consistency. Garments will experience a degree of colour change over time. This is due to the use of fabric detergents and fabric softeners in washing, as well as exposure to sunlight. It is therefore impossible for a new garment to match an older garment when worn together.

**8. I HAVE THE SAME STYLE IN DIFFERENT FABRICS BUT THEY DON'T FIT THE SAME?**

All our styles have their own unique pattern. This same style pattern is used, regardless of the fabric composition. Depending on the composition and handle of the fabric, some styles may feel slightly different.

**9. WHY ARE MY BLACK AND NAVY PANTS FADING?**

Dark colours will fade if left out in the sun for an extended period of time, or if your work requires you to spend long periods outside in the sun. When washing, please ensure that the garments are rinsed properly. Hang dark garments inside out and take indoors as soon as dry.

**10. WHY HAS MY JERSEY STRETCHED AFTER WASHING?**

When jerseys are wet, lay flat whilst drying to stop stretching.

**11. WHY DOES THE SAME FABRIC FEEL DIFFERENT IN SOME COLOURS?**

There is often a difference in handle between dark and light colours. This is due to different dyes used to dye dark and light colours. Darker colours will usually feel a little coarser than lighter shades.

**12. WHY ARE MY BLOUSES CREASING?**

Blouses and shirts made from cotton, or cotton rich fabric, tend to crease easier than those with a higher polyester content. If you do not want to spend a lot of time ironing, rather choose shirts and blouses made from polyester rich fabrics, or 100% polyester blouses for ladies. Cotton rich fabrics are however slightly cooler when worn.

**IMPORTANT POINTS TO NOTE****GARMENT CARE:**

Each of our garments have their own specific wash care instruction, relevant to the composition and construction of each fabric used. These instructions are printed on the sew-in label (usually found on the inside side seam). Additionally, we have a swing tag with general wash care guidelines to ensure longer lasting wear.

By carefully following these wash care instructions and ensuring that a sufficient quantity of garments is purchased (to avoid excessive wear of any one piece), your Rolando garments should perform well. Providing durability, comfort and lasting satisfaction.

We cannot accept responsibility for damage caused by mishandling, or failure to adhere to the garment care instructions provided.

**CONTINUITY:**

We are committed to ensuring the continuity of both quality and colour on all of our fabrics. However variations in colour and texture do occur. This is a result of different dyelots from each shipment of fabric. We carefully follow international industry standards and any variances are always within the international tolerance levels.

As much as we try to ensure styles remain for the entire duration of our catalogue, we do reserve the right to withdraw fabrics or styles that are nearing the end of their cycle.

**OUR GUARANTEE:**

Should there be any factory fault, please return the goods to us within 14 days. We will assess the claim and if found to be valid, the item will be repaired or replaced free of charge.

# Sizing Guidelines

## Ladies body measurement size chart

**Bust**  
Wrap a tape measure around your back, across your shoulder blades and under your arms. The tape should be straight and parallel to the floor. It must also wrap around the fullest part of your bust. Do not pull the tape too tightly.

**Waist**  
Measure the circumference of your waist. Use the tape to circle your waist at your natural waistline, which is located above your belly button and below your rib cage.

**Hip**  
Place the measuring tape across the widest part of your hips/buttocks. Measure all the way around while keeping the tape parallel to the floor.

### Tops

## Mens body measurement size chart

**Collar**  
Measure around the base of the neck. Put one finger between the tape and your neck if you want some extra room.

**Chest**  
Measure under the arms around the widest part of your chest, being careful to keep the measuring tape level across your back. Do not pull the tape too tightly.

**Waist**  
Measure around where you normally wear your pants, keeping the tape measure a bit loose or putting one finger between your body and the tape measure.

# Returns Policy

## OUR RETURNS POLICY

Should you wish to return or exchange any item, please ensure that the garments are in their original state and packaging. Please also ensure that they have not been worn or altered in any way.

Please inspect garments before sending for embroidery or any outwork, as we will not accept returns of garments that have been branded.

Any returns and exchanges need to be done within 14 days of purchase.

For any returns or exchanges that happen after this 14 day period, a handling fee will apply. This handling fee would also apply to those returns where garments are not returned in their original packaging.

Please ensure the original invoice is included with the return.

Please contact our friendly sales coordinators, at any of our branches, if you have any return queries.
